WORK EXPERIENCE

Web Developer

Deafor EOOD (August 2022 - today)

Enterprise Resource Planing System

Group project developing an ERP system for our company from scratch. It consisted of HR, Finance and Business Development parts.

My Tasks: Creating Frontend skeleton, developing the Admin and HR roles, login/register functionalities.

Brute App

Group project in 'react-native': app that is used for promoting different brands via giveaways and deals and coupons, where the users can earn coins by playing games and being on top of leaderboard and can also buy tickets to enter giveaway for bigger chances to win.

My tasks: Design 7 different screens, Develop from scratch full stack: daily/monthly Horoscope and Daily Quote functionalities. Login/Register, Single-Sign-In with Facebook + Apple.

Front end:

- HTML, CSS
- Git, GitHub, GitLab
- JavaScript
- React Typescript, React-Native
- Context API
- React Hooks, Custom hooks
- React-Query
- BrowserRouter
- React hook-form, Formik, Yup schema validation
- Axios, Axios interceptor
- Material UI, styled-components
- docx library for creating documents

Back end:

- Nest.js with TypeORM,
- nest-js-paginate,
- Postgres,
- JWT Authentication
